

Wöhler UL 23 Ultrasonic Leak Detector

TECHNISCHE DATEN

Frequency regulation	Precision-Quarzoszillator
Output frequency	40 kHz (± 2.5 Hz)
Indicator	acoustic signal and level LEDs
Output intensity	115 dB at 30 cm
Wave conductor	200 mm long
Sonic probe	200 mm long
Work temperature	-20...45 °C
Current supply	9 V Block battery
Service life	70 hours permanent use
Weight	1.25 kg in complete case

Application

Leak detection at e.g.

- Gas lines
- Water lines
- Refrigerant units
- Pneumatic systems
- Hydraulic systems
- Vacuum systems
- Electrical systems: switches, relays and other contacts

Scope of delivery	Wöhler UL 23 Basic Set	Wöhler UL 23 Standard Set
